

# The M&J F-series

sets new standards for the production of alternative fuels like RDF and SRF

Leading cutting technology for high capacity production of alternate fuels

NEW!

The M&J F-series is a family of unusually strong FineShredders that give you low operating costs and reliable production

The **M&J F140**, **M&J F210** and **M&J F320** are designed to deliver a stable, high quality output of **RDF/SRF**. The series can match all capacity requirements up to **23 tonnes/h** (90% below 50 mm)

It is well known that love comes in many guises. With the M&J F-series, you get a loyal partner for life in uncompromising quality. It is your guarantee of **outstanding performance**, minimal operating expense and superb uptime.

*Targeted and sharp as a shark*

M&J F-series

Created to perform  
year after year  
after year ...

Avoid costly  
downtime

M&J F-series gives  
you smooth and  
problem-free  
operations

#### PERFORMANCE

**100% raw power to  
get the job done**

Looking for the most superior fine-shredder  
on the market?

The M&J F-series can meet all your needs for  
production of alternative fuels like RDF/SRF  
across all capacity requirements.

- **Leading cutting technology** and cleverly designed rotor ensure highly efficient shredding of all qualified material
- With just a few button pushes, the intelligent pusher system can be programmed for various types of qualified material to **optimize** your production capacity
- **Easy maintenance** and **quick servicing** ensure that downtime is kept to an absolute minimum

Capacity  
up to

**23**  
tonnes/h

## SERVICING

### Easy service thanks to intelligent design

Downtime costs money and frustrations. With the M&J F-series of FineShredders the technicians can get production back up and running in no time.

- **High reliability** and **fast** and **easy** service limits downtime to an absolute minimum access
- **Fast delivery** and replacement of standard spare and parts
- **Specially trained** local service technicians are ready to help whenever you need them

## OPERATING EXPENSE

### A clear winner – in the long run too

Low energy consumption, minimal servicing, and easy maintenance. The M&J F-series means reliable production year after year at minimum operating cost.

- **Low installed power** and no need for daily adjustment ensures you low operating expenses
- Ingenious design with a single goal in mind – to make routine **maintenance simple and quick**
- Minimal need for maintenance and adjustment of M&J Recycling knife system
- Easy access to spare parts ensures that the machine can be **serviced quicker** than ever

## OUTPUT QUALITY

### Leaves everything the size of small coins

The M&J F-series delivers output quality in a class of its own down to 10 mm. Thanks to the leading cutting technology it is ideal for alternative fuel production such as RDF and SRF.

- **Homogeneous output** in the desired size ensures a consistent high-quality end product
- **Advanced cutting technology** leaves no, or a very limited amount of, fine particles
- **Minimal heat generation** and thus less risk of plastic melting and causing downtime

# You also get this with the M&J F-series ...

## Easy maintenance

At the heart of the M&J F-series of FineShredders is the unique and highly efficient cutting system. It does all the work without you having to do anything.

## High flexibility

The M&J F-series can handle your current challenges and adapt to your future challenges. Bales, rolls, bricks or loose – bring it all on. You determine the output size.

## Unbeatable uptime

Proven design that never fails. Minimal maintenance. No daily adjustment. Less heat generation. Expect the highest uptime on the market.

## Superb durability

It pays to buy quality. Every aspect of the M&J F-series has been thought through and thoroughly tested to give you unrivalled stability for years to come.

## The M&J F-series

*With M&J Recycling  
– you are in Safe Hands*

With M&J Recycling's well-proven technology, quality, and global network of service specialists and local service partners available 24/7/365 – you can sleep well at night
